ELECTRICAL ENGINEERS

SPECIAL SECTION ON BIO-INSPIRED CONTROL THEORY AND APPLICATIONS II

Genetic Algorithm with Dynamic Variable Number of Individuals and Accuracy

A. Tsukahara and A. Kanasugi 1

A Bioinformatics Based Approach to User Authentication via Keystroke Dynamics

K. Revett 7

Neural Network Based Biometric Personal Identification with Fast Iris Segmentation

R. H. Abiyev and K. Altunkaya 17

Discrimination of Visual and Haptic Rendering Delays in Networked Environments

I. Lee and S. Choi 25

Evolutionary Fusion of a Multi-Classifer System for Efficient Face Recognition

Z. Yu, M. Y. Nam, S. Sedai, and P. K. Rhee 33

REGULAR PAPERS

Control Theory

Robust Control Design of A Class of Nonlinear Systems in Polynomial Lower-Triangular Form

B. Wang, H. Ji, and J. Zhu 41

The Stability Analysis of the Adaptive Fading Extended Kalman Filter Using the Innovation Covariance

K.-H. Kim, G.-I. Jee, C.-G. Park, and J.-G. Lee 49

Observer-based Optimal Output Tracking for Discrete-time Systems with Multiple State and Input Delays

H.-H. Wang and G.-Y. Tang 57

Control Applications

Development of a Digital Turbine Control System in a Nuclear Power Plant

I.-K. Choi, J.-A. Kim, C.-K. Jeong, J.-H. Woo, J.-Y. Choi, and G. Son 67

Robotics and Automation

Balance Control of a Biped Robot Using Camera Image of Reference Object

S. Park, Y. Han, and H. Hahn 75

Trajectory Tracking with a 6R Serial Industrial Robot with Ordinary and Non-ordinary Singularities

L. Gracia, J. Andres, and J. Tornero 85

Mobile Robot Localization based on Effective Combination of Vision and Range Sensors

Y.-J. Lee, B.-D. Yim, and J.-B. Song 97

In-pipe Robot Based on Selective Drive Mechanism

S.-G. Roh, D. W. Kim, J.-S. Lee, H. Moon, and H. R. Choi 105

A Path Following Control of an Unmanned Autonomous Forklift

T. A. Tamba, B. Hong, and K.-S. Hong 113

Intelligent and Information Systems

A New Approach to Fuzzy Modeling and Control for Nonlinear Dynamic Systems: Neuro-Fuzzy Dynamic Characteristic Modeling and Adaptive Control Mechanism

X. Luo, Z. Sun, and F. Sun 123

TECHNICAL NOTES AND CORRESPONDENCE

State Feedback H_∞ Control for a Class of Nonlinear Systems Using Partition of Unity Method

D.-F. Han and Y.-H. Wang 133

Relaxed Stability Condition and State Feedback H_∞ Controller Design for T-S Fuzzy Systems

X.-H. Chang and G.-H. Yang 139

Improvement of Data Receive Ratio in Remote Water Meter System by Upgrading Sensor

H. Kim and O. Ayurzana 145

Periodic Use of Time-Varying State Feedbacks for the Receding Horizon Control of Bilinear Systems

Y. I. Lee, B. Kouvaritakis, and M. Cannon 151

INDEXED IN Science Citation Index Expanded (SCIE), CompuMath Citation Index®, Current Contents®/Engineering Computing & Technology, Compendex (Engineering Index), SCOPUS, Korea Research Foundation Index.
