

REGULAR PAPERS

Control Theory

Digital Inverse Model Control Using Generalised Holds with Extensions to the Adaptive Case

A. Ibeas, M. de la Sen, P. Balaguer, R. Vilanova, and C. Pedret 707

Robust H_∞ Filtering for Uncertain Two-Dimensional Discrete Systems with State-Varying Delays

H. Xu and Y. Zou 720

A Computationally Efficient Approach for NN Based System Identification of a Rotary Wing UAV

M. K. Samal, S. Anavatti, T. Ray, and M. Garratt 727

PD Observer Design for Descriptor Systems: An LMI Approach

J. Ren and Q. Zhang 735

Improved L_2 - L_∞ Filtering for Stochastic Time-delay Systems

Y. Zhang, A.-G. Wu, and G.-R. Duan 741

Control of Nonlinear Systems Represented by Galerkin Models Using Adaptation-based Linear Parameter-varying Models

C. Kasnakoglu 748

Application of Nonlinear Rescaling Method to Model Predictive Control

R. Hedjar 762

Observer-Based H_∞ Control for Networked Systems with Consecutive Packet Delays and Losses

F. Yang, W. Wang, Y. Niu, and Y. Li 769

Control Applications

Non-Symmetric Unscented Transformation with Application to In-Flight Alignment

K. Kim and C. G. Park 776

Robotics and Automation

Intelligent Interaction based on a Surgery Task Model for a Surgical Assistant Robot: Awareness of Current Surgical Stages based on a Surgical Procedure Model

S. Y. Ko, W.-J. Lee, and D.-S. Kwon 782

Profile-based Roughness Discrimination with Pen-type Texture Sensor

X. Ye, B. Choi, S. Kang, and H. R. Choi 793

Novel Adaptive Particle Filter Using Adjusted Variance and Its Application

S.-H. Park, Y.-J. Kim, and M.-T. Lim 801

Recognition and Path Planning Strategy for Autonomous Navigation in the Elevator Environment

J.-G. Kang, S.-Y. An, W.-S. Choi, and S.-Y. Oh 808

Fire Detection Based on Hidden Markov Models

Z. Teng, J.-H. Kim, and D.-J. Kang 822

Intelligent and Information Systems

A Bandwidth Allocation Scheme in Fieldbuses

S.-H. Hong and J.-H. Lee 831

Modified Genetic Programming Combining with Particle Swarm Optimization and Performance Criterion in Solar Cell Fabrication

H. Bae, T.-R. Jeon, S. Kim, and S.-S. Han 841

BIBO Stabilization of T-S Fuzzy Neutral Systems by LMI Approach

G. Li, J. Yang, and Y. Zeng 850

Feature Enhancement of Medical Images using Morphology-Based Homomorphic Filter and Differential Evolution Algorithm

J. Oh and H. Hwang 857

Integrated Design and Evaluation System for the Effect of Rest Breaks in Sustained Mental Work Based on Neuro-physiological Signals

L. Chen, T. Sugi, S. Shirakawa, J. Zou, and M. Nakamura 862

Water Quality Prediction in a Reservoir: Linguistic Model Approach for Interval Prediction

J.-I. Park, N.-C. Jung, K.-C. Kwak, and M.-G. Chun 868

TECHNICAL NOTES AND CORRESPONDENCE

Model Reduction for the Descriptor Systems by Linear Matrix Inequalities

D.-C. Oh and E.-T. Jeung 875

Controller Design over Communication Networks with a Fast Retransmission Strategy Based on Exact Analysis

B. Tavassoli, P. Jabehdar-Maralani, and N. Rezaee 882

Singularity Avoidance of CMGs by Virtual Actuators

J.-O. Park and Y.-D. Im 891

On the H_∞ Deconvolution Fixed-lag Smoothing

X. Lu, H. Zhang, and J. Yan 896

Indirect Adaptive Fuzzy Control for a Class of Nonaffine Nonlinear Systems with Unknown Control Directions

S. Labiod and T. M. Guerra 903

On Global Stabilization of a Class of Nonlinear Systems with High-order Nonlinearities by State Feedback

M.-S. Koo, H.-L. Choi, and J.-T. Lim 908

BIBO Stability of Switched Uncertain Neutral Control System

J. Cui, L. Xiong, and M. Ye 913

INDEXED IN Science Citation Index Expanded (SCIE), CompuMath Citation Index®, Current Contents®/Engineering Computing & Technology, Compendex (Engineering Index), SCOPUS, Korea Research Foundation Index.
